

## Individual membership of the SSF

### The SWISS SECURITY FORUM (SSF)

Since its foundation in January 2018, the SWISS SECURITY FORUM (SSF) has developed into a relevant, politically independent and recognized voice in the security policy landscape in Switzerland and its neighbouring countries. The SSF considers itself as a knowledge hub and dialog platform with the clear aim of ensuring that security policy issues are voiced and given sufficient attention in society, business and politics – even among those who have little or no engagement or even a negative attitude towards security issues. Accordingly, the SSF credo is: “Security concerns us all”.

For this reason, we organize around four high-calibre Security Talks each year, which are welcomed with great interest by experts from Switzerland and abroad as well as by the interested public. In the last 7 years, the SSF has been able to hold over [24 successful Security Talks](#) on a range of security policy topics.

We owe this to our long-standing members from civil society, industry, administration and academia, among others, who actively support us in this endeavour. With this in mind, we would be happy to welcome you as an individual member of the SWISS SECURITY FORUM in the future.
