

Individual membership of the SSF

The Swiss Security Forum

Since its foundation in January 2018, the SWISS SECURITY FORUM (SSF) has developed into a relevant, politically independent and recognized voice in the Swiss security policy landscape. The SSF sees itself as a knowledge and dialog platform with the clear aim of ensuring that security policy issues are heard and given sufficient attention in society, business and politics – even among those who have little or no contact with the topic of security or have a negative attitude towards it. Accordingly, the SSF motto is: «Security concerns us all!».

For this reason, we organize around four high-calibre Security Talks each year, which are met with great interest by experts from Switzerland and abroad as well as the interested public. In the last seven years, SWISS SECURITY FORUM has been able to hold over [25 successful Security Talks](#) on various security policy topics.

We owe this to our long-standing members from civil society, industry, administration and academia, among others, who actively support us in this endeavour. With this in mind, we would be happy to welcome you as an individual member of the SWISS SECURITY FORUM in the future.

What are the Benefits of an individual membership?

- ◆ **Free and privileged participation in SSF events**

As an individual member, you can attend SSF events free-of-charge. Compared to regular participation without a membership you save around CHF 300 per year.

- ◆ **Access to an exclusive network**

Membership of the SSF gives you direct access to a broad network of speakers and guests from politics, administration, industry, business, science, and civil society. And all of this in a neutral setting where you can hold informal discussions and maintain contacts.

- ◆ **Access to expert knowledge in the field of security**

The SSF organizes top-class events with proven experts from Switzerland and abroad in the field of security. As a member, you will gain direct access to first-hand expert knowledge.

- ◆ **Opportunity to get actively involved**

Whenever the setup allows, we create space for a Q&A with the audience at the end of our events – and thus offer our members a unique opportunity to get actively involved and discuss topics in greater depth.

- ◆ **Position yourself as a committed player in the field of security**

As a member of the SSF, you are part of a renowned forum for dialogue in the field of security with a (inter)national reach – and can express your interest and commitment.

What are the impacts of your membership?

◆ «Security concerns us all!» – our guiding principle

As a stakeholder-wide dialogue platform, the SSF promotes targeted dialogue and knowledge exchange between actors within and outside the security sector. Whether politics & authorities, business & industry, civil society or science – everyone is welcome at the SSF Security Talks. Students and trainees attend SSF events free of charge. As a result, our audience is constantly growing. At the same time, the SSF Security Talks provide an ideal forum for discussion and networking.

◆ A valuable contribution – to cover event costs and promote security dialogue

The cost of a single Security Talk is around CHF 20'000, depending on the venue and the number of attendees and speakers. As a non-profit organisation, the SSF relies on membership fees to cover these and other costs.

Your commitment ensures that the SSF can hold regular events and create added value for society as a neutral and independent platform for dialogue on security issues.

Impressions from the SSF Security Talks

You can find more pictures and reports of our SSF Security Talks on our [Website](#).
